Koopvaardij Portaal

Using the Koopvaardij Portaal you can swiftly and easily deliver your employees information through the internet.

Monthly you deliver the wage information of the employees that have received wage in the previous month. You deliver the following information, among other things:

- starting date period
- end date period/employment
- daily wage
- registering/deregistering/changing unpaid leave

Do you have any questions?

You can find all the necessary information for delivering your employee information with Bpf Koopvaardij in this manual. Do you have any questions? Do not hesitate to contact us. We would like to be of service.

Bedrijfspensioenfonds voor de Koopvaardij

T: +31 88 007 98 91

E: servicedesk@koopvaardij.nl

General information about Bpf Koopvaardij and the Periodic Wage Assignment Tool can be found on www.koopvaardij.nl.

Please take note to completely fill in your employee information. This will prevent any delays when processing.

Logging into the Koopvaardij Portaal

Go to <https://secure.kvdportaal.nl>. You need e-Herkenning with assurance level EH3 to log in.

Employee search

If you wish to enter a mutation or to consult employee records, click on **Werknemers** on the left menu. Search the employee and then click on the employee.

You can search an employee using three different search keys:

1. CSN (BSN nummer)
 2. Surname
 3. Personal Identification Number (Persoonsnummer)
-

Employees

For whom do you register the wage assignment?

Every employee that has a labour contract with your company.

Exceptions: Directors of NVs and BVs that are registered as such with the Chamber of Commerce with total/independent commercial power. They do not participate in the Bpf Koopvaardij pension scheme and therefore do not need to be registered.

When do you do wage assignment?

At the end of every calendar month at the latest. For example: the wage assignment for September is delivered at 31 October at the latest.

For what do you register?

- The employee is automatically registered with the Bpf Koopvaardij pension scheme.
- If your new employee enters your service from an employer that was not affiliated with Bpf Koopvaardij, we automatically send the employee request forms for pension transfer ('pensioen meenemen').

How do you register an employee?

You need the following information to register an employee using the Koopvaardij Portaal:

- Name;
- Address;
- Date of birth;
- CSN (BSN);
- Employment starting date;
- Pensionable daily wage.

You can enter daily wages in two ways using the Koopvaardij Portaal:

1. Manual entry (fill in online);
2. File upload.

Step 1

Fill in the date of service, the pensionable daily wage and the number of days under the heading **Periode Loon**.

PLEASE NOTE

At 'aantal dagen': For parttimers/call workers a separate line for the days not worked needs to be filled in such a way that the amount of calendar days is equal to the days in that month. Enter 0 for the daily wage.

Click the button **Volgende**.

Are you registering someone in the previous year? Then you need to enter the pensionable daily wage of the year in question.

Periodic wage assignment tool

Using the periodic wage assignment tool (Excel) you can generate an import file with which you can pass on and upload the new wage assignment for an entire personnel file in the Koopvaardij Portaal.

Downloading the tool

After downloading the tool you can open this using Microsoft Excel. In order to complete the upload within the Koopvaardij Portaal as well as possible, you need to meet the following requirements.

Requirements for using the tool

- your tax number and employers number with MN Services need to be known in the Koopvaardij Poortaal;
- the file you wish to upload has to be a .xml file. (Please note that you do not upload the .xls file);
- you cannot change anything about the format of the Excel tool.

PLEASE NOTE

An XML-file might also be generated from your salary package. This file can be processed in the same manner in the Koopvaardij Portaal as an xml-file from the tool.

How do you make an XML-file using the tool?

Structure. Every XML file for Bpf Koopvaardij is structured as follows:

```
<?xml version="1.0" encoding="utf-8" ?>
<Message xmlns="http://www.ec-design.nl/Abz/SDM/0.2/structures" xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance">
+ <BrAlg>
+ <Afnmr>
+ <Afnmr>
+ <Wrkgvr>
</Message>
```

In the BrAlg element the general information of the message is set. The Afnmr element contains the customer for whom the message is intended. Voor BpfK the message is sent to MN. In the Wrkgvr element the actual notifications are made.

BrAlg

```
<BrAlg>
  <BrCd>00301</BrCd>
  <VnrBrCd>00002</VnrBrCd>
  <Berrefnr>Uw bestandsreferentie</Berrefnr>
  <TestJN>N</TestJN>
  <OntvngstbevJN>N</OntvngstbevJN>
</BrAlg>
```

Add your own
reference here

Most of the elements of BrAlg are set for BpfK. Only the Berrefnr is free. You can enter a reference to your own file here, such as the name of the XML file.

	Verplicht Optioneel Conditioneel	Vaste waarde	Variabele inhoud	Maximale lengte
<BrAlg>	V[1]			
<BrCd>	V	00301		
<VnrBrCd></VnrBrCd>	V	00002		
<Berrefnr>	V		zelf te kiezen referentie	512 karakters
<TestJN>	V	N		
<OntvngstbevJN>	V	N		
</BrAlg>				

Afnmr

```

<Afnmr>
  <AfnmrCd>181</AfnmrCd>
  - <Com>
    <SrtComCd>98</SrtComCd>
    <NrCom>123456</NrCom>
  </Com>
</Afnmr>
<Afnmr>
  <AfnmrCd>183</AfnmrCd>
  - <Com>
    <SrtComCd>98</SrtComCd>
    <NrCom>123456</NrCom>
  </Com>
</Afnmr>

```

Enter your employers number here

The Afnmr element decides to whom message are sent by the Koopvaardij Portaal based on the uploaded message. For BpFK you enter your own MN employers number.

	Verplicht Optioneel Conditioneel	Vaste waarde	Variabele inhoud	Maximale lengte
<Afnmr>	V [1 van 2]			
<AfnmrCd>	V	181		
<Com>	V			
<SrtComCd>	V	98		
<NrCom>	V		MN werk- gevernummer	6 cijfers
</Com>				
</Afnmr>				
<Afnmr>	V [2 van 2]			
<AfnmrCd>	V	183		
<Com>	V			
<SrtComCd>	V	98

</StrAdrBtl>				

Dnstvbnd

The minimal set with which the daily wage for a period is communicated looks as following:

```
<Dnstvbnd>
<IdDnstvbnd>leeg</IdDnstvbnd>
-<PeriodiekeOpgave>
<SoortPeriodeCd>02</SoortPeriodeCd>
<Prdnr>1</Prdnr>
<Ingdat>2010-01-01</Ingdat>
<Enddat>2010-01-31</Enddat>
<AantSV>21.75</AantSV>
<LnSV>1000.00</LnSV>
<LnBruto>1000.00</LnBruto>
<Premie>100.00</Premie>
<PrepensioenPremie>0.00</PrePensioenPremie>
-<Loontoekenning>
<SoortLoonCd>01</SoortLoonCd>
<AantalToegekend>31</AantalToegekend>
<Bdr>50.00</Bdr>
</Loontoekenning>
<PeriodiekeOpgave>
</Dnstvbnd>
```

The Prdnr is equal to the month of the period.

The number of days in the period (31) need to entered at 'loontoekenning'.
There may be different daily wages entered ((including) a Bdr 0) and the total number of days must be equal to the number of days in the period.

PLEASE NOTE

The Bpf Koopvaardij pension scheme has changed per 1 January 2015. You no longer deduct net prepension premiums from the salary. You enter 0.00 in the XML.

Aanvulling Aantal Toegekend

In case less days have been worked than are in the period, the number of days is complemented with 0 declarations for the other days. For example: in case someone worked 14 days in February and did not work for the other 14 days, you enter the corresponding daily wage for 14 days and a daily wage of 0 for the remaining 14 days.

Terminating an employment

```
<Dnstvbnd>
<IdDnstvbnd>leeg</IdDnstvbnd>
<Ingdat>2010-01-01</Ingdat>
<Enddat>2010-01-31</Enddat>
<RdEndDnstvbndCd>01</RdEndDnstvbndCd>
```

Using the Enddat and the RdEndDnstvbndCd (see appendix 3 for an explanation of the codes) an employee can be reported from service. It is important to note that the end date falls within the period of registering. It is not possible to enter an end date in the future.

Paid leave

```
<Premie>100.00</Premie>
<AantalDagenUitbetaaldVerlof>7.00</AantalDagenUitbetaaldVerlof>
<BedragUitbetaaldVerlof>50.00</BedragUitbetaaldVerlof>
<Loontoekenning>
```

Between the contributions and the wage there is room for paid leave. The number of days is converted by dividing the number of days by 5 and multiplying by 7. In *BedragUitbetaaldVerlof* the pensionable daily wage is displayed. The contributions with MN are calculated by multiplying the number of days by the daily contribution at the given up daily wage.

PLEASE NOTE

It is not possible to only enter a correction for an already entered period. In case you want to correct in this period you need to reenter all the data for this period.

XML file for multiple employees at once

The XML file with notifications for multiple employees is more or less the same as a XML file for a single employee.

The BrAlg element and the Afnmr element are the same as the elements in the XML file for a single employee and both appear once in the message for multiple employees. In the Afnmr element the employers number of one of the employers is displayed (this is random).

The Wrkgvr element is the actual notification and needs to be incorporated in the XML file for multiple employees per employer. Herein you enter the tradename per organization in the HndlsnmOrg element and the appropriate wage tax number in the Lhnr element. The wage tax number is the unique element with which an employer is recognized when importing the XML file. The employers numbers are added from the Koopvaardij Portaal in the message for MN.

Explanation of concepts

Current SV-wage amount

The wage for employee insurance. Column 8 of the payroll. This is the wage without taking the maximum contribution wage and franchise into account. Enter 0 if the employee is not insured for employee insurance.

SV-wage days

The number of SV-days in the period concerned.

Gross wage

The agree upon contract wage between employer and employee during the interview before wage tax and national insurance contributions are deducted.

Pension contribution

The contribution as it is owed to the pension administrator must be calculated over the entered period (the commencement date of pension date and end date of pension data) and the entered pensionable daily way. This is the employer's and the employee's share.

Paid leave duration

Number of days of paid leave

Paid leave daily wage

The amount of paid daily wage per day.

PLEASE NOTE: When working next to retirement you keep paying pension contribution

Employees that retire before 67 years and continue working are members of the pension scheme. This means that employees keep building up pension and that you keep paying contributions for these employees. The pension buildup stops as soon as the employee turns 67 years or when he or she stops working.

Adding a secondary user

The main user of Koopvaardij Portaal can also log in a secondary user. To do this, click on **Toegangsbeheer** on the left in the menu. Then click on **Nieuwe gebruiker**. The new user can log in with eHerkenning when the main user registered all users.

Changing your employers information

Do you wish to enter a change in your company's information?

You can input changes for the following information:

- trade name
- correspondence address.

PLEASE NOTE

- *You cannot change your registered name*
 - *You cannot change your KvK number*
 - *Changes can only be applied as of now or in the future, no past changes are possible.*
-

Appendix 1: Concept descriptions and calculation examples

Monthly wage information

What you need to know

The information you deliver is used to calculate the pension and the contribution of your employee for the current year.

The calculation is based on your specified pensionable daily wage. In this industry we know different pensionable daily wages.:

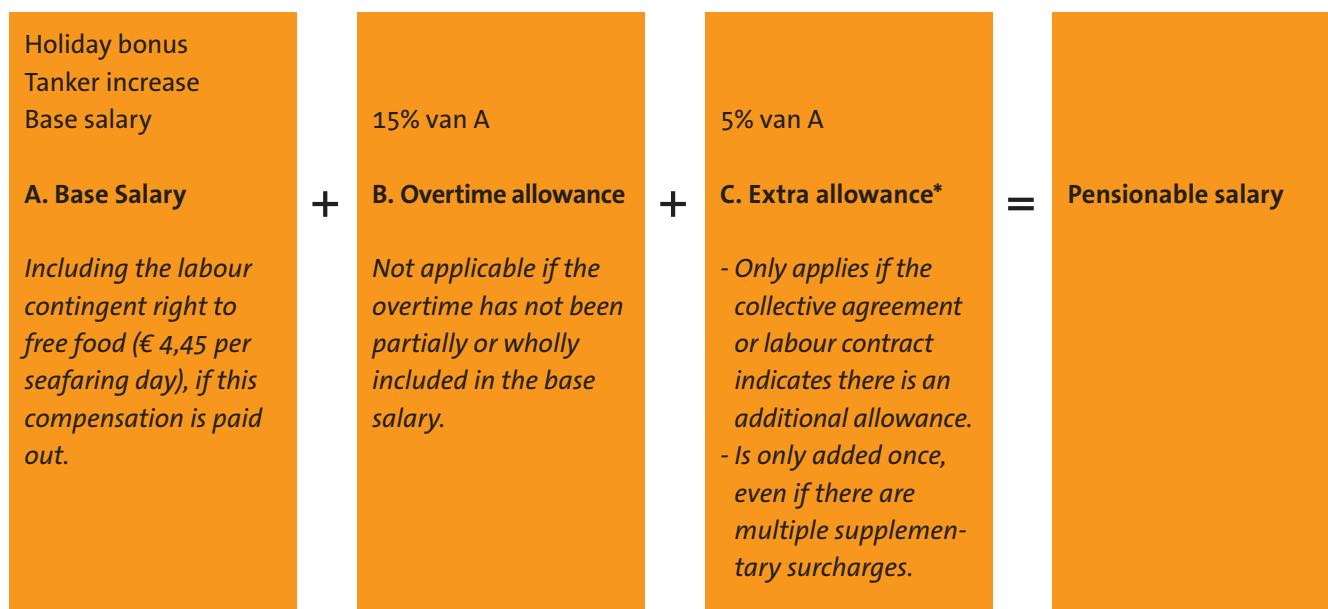

1. sailing allowance: pensionable daily wage including the surcharges that need to be included in the sailing.
2. shore allowance: pensionable daily wage without the sailing surcharges.
3. leave allowance: pensionable daily wage belonging to paid leave.
4. unpaid leave: a period that no allowance is paid by the employer such as parental leave, life course or internship.

Pensionable daily wage

The pensionable daily wage consists out of the following elements:

1. Base salary;
2. Tanker increase;
3. Holiday bonus;
4. Overtime allowance of 15% over element 1+2+3;
5. Extra allowance of 5% over element 1+2+3 if, according to the collective agreement or labour contract, there is an additional allowance next to element 1 to 4. As of 1 January 2019, employers with a collective agreement have the option to not apply the extra surcharge of 5%. However, the collective agreements with Nautilus International must then compensate the seafarer for the adverse financial consequences.

Schematically, this looks as follows:

! When determining the pensionable daily wage the increase due to travel time is not included.

** You apply the extra allowance not only during the time on board, but also during leave. If you pay, for instance, a thirteenth month or a year-end bonus on a structural basis, you must apply the fixed rate on a monthly basis. If you pay a thirteenth month or year-end bonus only occasionally, you must apply the fixed rate only in the month of payment.*

Pensionable daily wage paid out leave

As of 1 July 1986 contribution is also owed over the not over the enjoyed time – regardless of the number of days of the calendar year for which contribution has already been calculated, but paid entitlements to periodic and compensatory leave.

The pensionable daily wage for paid out leave needs to be submitted as following:

- The pensionable allowance for one day over paid out leave (when reducing do not take SV days but a 7 day workweek).
- Days over which contributions are deducted (on based on a 7 day workweek).

For example: Calculation method cash paid leave.

Imagine: a sailor is paid his 10 leave days in cash. His daily wage is € 100.00

In this situation the sailor receives: $(10 \times 7/5) = 14$ days and € 100.00 gross

You indicate 14 days € 100.00 pensionable daily wage

Pension base: € 100 - € 38.71 = € 61.29

Pension contribution: € 61.29 x 0.1295 = € 7.94

$14 \times € 7.94 \times 2 = € 222.24$ pension contribution

PLEASE NOTE:

Paid out leave is rounded down to whole days.

Unpaid leave

When someone uses life course or parental leave, the employee stays in service of the employer. Therefore, the employee needs to be registered. In order to do this, you enter a daily pensionable wage of € 0.00. This is also applicable to employees that are on care leave and do not receive any wage. If an employee is on care leave and is he or she receiving wage? Then you register this employee with the relevant daily wage.

Has there only been work for a part of the month?

Has your employee worked for 12 days in a particular month and will he or she remain in service? Then you need to fill-up the remaining days of the months with € 0.00. A month always needs to be completed in the number of days. This means 28/30/31 need to be registered every month.

Negative leave

It is not possible to register negative leave. You can correct this by reentering the period on which this is applicable.

Set values

For 2020 the maximum daily wage is € 248.83.

The daily pension offset is € 38.71.

Pension scheme per 1 January 2015, pension scheme on 67 years

The contributions percentage in 2020 is:

- 25.90% of the pensionable daily wage minus the pension offset of € 38.71 per day.

The pension contribution of the pension scheme is calculated over 366 days in 2020 and is charged in equal terms for the employee and the employer.

Calculation of the contribution according to the pension scheme per 1 January 2015
Based on the maximum daily of wage of 2020 of € 248.83.

The pensionable daily wage of € 248.83

Pension offset of € 38.71

Example 1: First mate

- Salary of € 3,671 gross per month
- During active service 30% overwork allowance, a part of the overwork has been included in the salary.
- 8% holiday bonus
- Increase due to service on big vessels during active service 18%
- Mentor surcharge of € 35 per month

Pensionable salary	Calculation
Salary	€ 3,671
Holiday bonus (8% x 3,671)	€ 293.68
No addition of 15% because overwork is included in the salary	-
5% surcharge of the salary & holiday bonus (3,671 + 293,68)	€ 198.23
Total per month:	€ 4,162.92
Per day (€ 4,162.92 x 12/366)	€ 136.49

Example 2: Second mechanic

- Salary of € 2,982 gross per month
- During active service 45% overwork allowance
- 8% holiday bonus
- Tanker increase of € 193.00
- Mentor surcharge of € 40 per month

Pensionable salary	Calculation
Salary	€ 2,982.00
Tanker increase	€ 193.00
Holiday bonus (8% x (2,982 + 193))	€ 254.00
Addition of 15% because overwork surcharge (15% x (2,982 + 193 + 254))	€ 514.35
No addition of the 5% surcharge	-
Total per month:	€ 3,943.35
Per day (€ 3,943.35x 12/366)	€ 129.29

Example 3: First Mate

- Salary of € 3,621.00 gross per month
- During active service 50% overwork allowance
- Offshore allowance: € 806
- 8% holiday bonus
- Mentor surcharge of € 100 per month

Pensionable salary	Calculation
Salary	€ 3,621.00
Holiday bonus (8% x 3,621.00)	€ 289.68
Addition of 15% because overwork surcharge (15% x (3.621 + 289.68))	€ 586.60
5% surcharge over salary + holiday allowance due to surcharge (5% x (3,621 + 289.68))	€ 195.53
Total per month:	€ 4,692.81
Per day (€ 4,692.81x 12/366)	€ 153.68

Example 4: Captain

- Salary of € 6,286.00 gross per month
- Command allowance, mentor allowance, national insurance contributions etc. are included in the base salary
- 8% holiday bonus
